Sync

If you need to sync more folders, please upgrade

Upgrade

- First open the link so it shows up in your “Shared” section of Google Drive.
- Make sure to stay in the same email throughout the process.

In the “Synced Folders” section of the app go to [Edit] to add the folder from Google Drive.

× Select remote folder

Folder pair

SAVE

× Select local folder

Sync

Google Drive account

In the Status section Tap on
“Sync”

It should download everything
from the Google Drive Folder
for the first time. And only the
changes/updates in the later
iterations.
